RE: Administrators Disregard for Disciplinary Protocol

We have been advised that some principals have told their teachers that they should not submit (input) behavior referrals into Infinite Campus. We believe this is happening at School #19 and also at School #18 where the principal had developed her own format.

We have been informed at School #18, the principal told teachers not to report fights unless there is blood or an injury.

We have also been informed that in some cases the teacher inputted documentation has been changed or removed by an administrator.

Indeed, in one school, #79, we have been informed that teachers should not use the word "assault". If they do, they will be insubordinate.

We will be surveying our teachers to determine the extent of this issue.
