RE: Incorrect Composite Scores

The District has just notified us that approximately 1089 composite APPR scores for Buffalo Teachers with multiple SLO/LMA scores were calculated incorrectly by "truenorthlogic", the company that the District has employed. These scores are lower than they should be. This may affect whether a teacher has to complete a TIP.

You will be receiving notification and a corrected score from the District.

The error was not the fault of the District.

We'll keep you up to date.
