January 17, 2014

**MEMO TO:** All Buffalo Teachers  
**FROM:** Philip Rumore, President, BTF  
**RE:** Shortage of Computers/Impact on Instruction

It appears that there are serious instructional problems arising from the use of the limited number of computers in the schools, e.g.

- Computer rooms in schools being used for testing students thereby preventing their normal use for instruction.
- Computers in classes, e.g. business classes being used for student testing requiring the teacher to cease instruction for days.
- Computers that are normally used for regular instruction being used for other purposes.

In order to obtain a clear view of the problem so that we can work to solve the problem, please complete the enclosed questionnaire and email it back to Sierra at [sumhauer@btfny.org](mailto:sumhauer@btfny.org) or fax it to the BTF at 881-6678.

Thank you as always for your assistance, solidarity and support.
